

VIEWS FROM THE GLEN

Sue's Views....

A retired DNR official, an Air Force RN, a retired Sheriff's Department employee, a retired elementary teacher, a retired bank president, an in-home pet sitter, and another RN.....getting together on a regular basis. You might definitely scratch your head and wonder.....why? What would bring this unlikely group together in this busy world. The reason, it's us, Glenview-Meadowview, our tenants, our staff, our property.

These seven community members have made a commitment to us and serve as our Board of Directors. They bring a wealth of community understanding and personal knowledge to our place. They come together to stay abreast of the current "happenings" at Glenview and Meadowview. They make decisions in the best interest of the organization and they assist in steering and guiding our future path.

Over the years, Board leadership has helped us to grow into the successful senior campus that we are today. I extend my sincere appreciation to each one. I hope you will do the same if you have the chance to do so. ~Sue
